Dear Sir,

Sub: Outcome of the Board Meeting held on 29th September 2021

At the Meeting held today the Board has approved the following, subject to the consent of the Members through Postal Ballot:

a. **Amendment to the objects clause of the Memorandum of Association:**

At present, the main objects of the Memorandum of Association (MOA) contain activities encompassing mainly petrochemicals, other chemicals, and similar products. There is no provision to take up allied activities like manufacture/sale of catalysts, packing and packaging materials, equipment, components, consumables, and similar materials used/required for production and distribution of the said products. In order to provide flexibility to the Company to explore possibilities of expanding into allied activities, the existing Clause III (2) of the Memorandum of Association is proposed to be amended to include the said activities.

b. **Amendment to the Articles of Association:**

The Company was incorporated under the 1956 Act and the provisions in the Articles of Association (AoA) refer to this Act. The 1956 Act has been replaced with a new Companies Act from 1st April 2014 and so the references therein are not relevant.

Further certain provisions in the Articles are not aligned to the new Act of 2013. While some of the clauses have become not relevant under the new Act, a few items like buy back of shares, charges for inspection and copies of documents, etc. are required to be included in the Article, specifically. The major changes relate to the following:

- i. Change the definition of the word "Act" to mean the present law, rules and directives and remove references to the 1956 Act and its sections and related matters.
