We will move ahead with our dual focus on profitable and healthy growth while implementing green technologies for our products and plants. I congratulate the entire team for delivering this performance, even in the current times of macroeconomic challenges.

The health and well-being of our employees continue to be a priority, and adherence to COVID-19 protocols for safe operations is a key focus. Post pandemic, our efforts to work for the upliftment of marginalized communities, especially around our manufacturing plants, will continue as a part of our CSR program.

Mr. Ravi, MD of MPL and CEO, Petrochemicals Division of AM International Group said that during the quarter demand for all the products improved post lifting of the restrictions across the country. All-around increase was seen in product prices and margins, and the quarter recorded historically highest turnover. We expect to maintain a similar performance in the coming periods, subject to imports into India, which has remained subdued for over a year due to global market conditions.
